

Multi-Family Residential Accessibility Standards Navigator

Where is the project?

Will public funding be used?

If not, you're complete!

About Grimm + Parker Architects

We're a diverse group of architects and designers who aspire to make our communities wonderful places to live, learn and play.

As community architects, we seek to give meaning to the buildings and spaces that shape our lives. Our purpose is to serve our clients and their neighborhoods through the design of schools, libraries, mixed-use developments, multi-family residential spaces, and a wide array of cultural and civic buildings. The buildings we create serve a meaningful purpose and give back to their communities for years to come.

Our residential and urban design studio is known in the regional development community for consistently delivering residential projects with design and performance results that stand out in the marketplace while respecting budgets.

This chart assumes IBC R-2 occupancy type and is for informational purposes only. Always check with your local jurisdiction and funding sources to confirm the latest requirements. This chart does not apply to transient housing (motels, hotels, shelters, dormitories, or other transitional residential buildings where residents typically occupy the space for less than one year).
